Probe Covers

At Karex, we continuously endeavour the usage of probe covers to prevent any cross-contamination during medical examination. All our probe covers are made from the highest quality raw materials to provide a softer feel and the ease of use. They are specially designed for maximum flexibility and safety during intracavity examinations with ultrasound probe.

We offer a wide variety of probe covers that are customisable to your requirements.

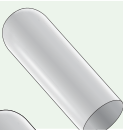

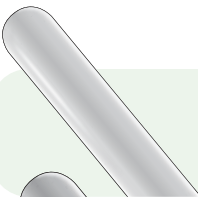

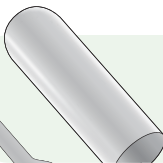

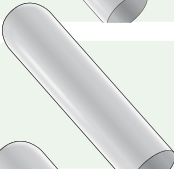

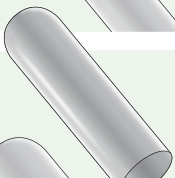

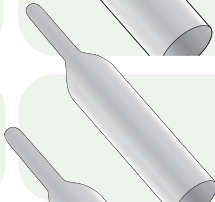

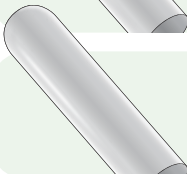

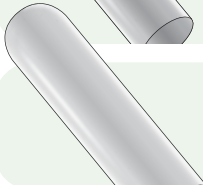

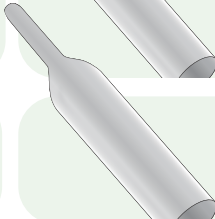

WHO IS KAREX?

- Karex has the market reputation as proven track record as the world's largest condom maker
- We have the capacity to produce over 5 billion condoms annually
- We export to over 130 countries globally
